

Electronic Security Technician Trainee

We install, maintain and monitor burglar alarms, fire alarms, CCTV and Access systems. In addition, we also install voice/data cabling. A large portion of our work is commercial/government; but, we do a fair amount of residential. Our primary territory is Merced to Lodi; however, there is some occasional travel outside of the area. Our offices are located in Merced and Modesto. Our current openings are located in Merced and Modesto.

Electronic Security Technician Trainee (Merced/Modesto)

- Installation of small and large scale burglar alarm systems
- Installation of commercial fire alarm systems to UL Standards
- Installation of large scale CCTV systems. Knowledge of IT Network functions
