

Lead Installer/Service Technician

Central Valley Security Company seeking experienced people for several positions available in Merced/Modesto.

We install, maintain and monitor burglar alarms, fire alarms, CCTV and Access Systems. In addition, we also install voice/data cabling. A large portion of our work is commercial/government; but, we do a fair amount of residential. Our primary territory is Merced to Lodi; however, there is some occasional travel outside of the area. Our offices are located in Merced and Modesto. The current openings are located in Merced and Modesto.

Positions Available

Lead Installer(s):

- Installation of small and large scale burglar alarm systems
- Installation of commercial fire alarm systems to UL Standards
- Installation of large scale CCTV systems. Knowledge of IT/Network functions
- Installation of Access Control Systems, computer literacy, and basic programming skills are required
- Ability to act as a lead technician/foreman and supervise an apprentice or crew after apprenticeship
- Fire life safety is a major bonus and would greatly increase our offer.

Service Technician(s):

- Testing of fire alarm systems
- Service and troubleshoot existing systems as described above
- Ability to be on call after hours for a one week period approximately every five weeks after apprenticeship
- Installation of small and scale burglar alarm systems
- Ability to communicate and present one's self in a professional manner in front of our customers
- Fire life safety is a major bonus and would greatly increase our offer
